

Electric Vehicle Charging Connectors

Charging Power Plugs and Cable Assemblies

Features & Benefits Include:

- Silver-plated contacts for charging up to 450A continuous, 2000A peak
- Variety of integral molded plugs and receptacles
- Rugged contacts designed for low insertion force
- Excellent resistance to moisture/chemicals and severe outdoor wear and tear

Fast Charge Power Cables and Receptacles (80VDC/150A and 400VDC/450A):

6 Pin Connector and
Receptacle

9 Pin Connector and
Receptacle

- High current 6 and 9 pin plugs and receptacles
- Multiple cable configurations and options

Battery Connectors (up to 600V/300A):

Versatile, secure, high current corkscrew connector suitable for:

- Weatherproof battery charger and inter-component connections
- Ground power connector in marine, air and rail transport
- Wherever hydraulic fluids, oils, acids and other such potentially destructive elements could shorten the connector life
